

Soft and environmentally friendly solutions made of recycled rubber

ErgoSoft Rubber Mulch Safety Surfaces are a mixture of dyed recycled rubber mulch and polyurethane which can be poured seamlessly on site - directly on top of almost any sub-base with a minimum of preparation.

ErgoSoft has a nature look and is therefore especially suited for the use on natural playgrounds in parks and gardens.

When installing ErgoSoft, the use of time for digging and removal of soil is minimized and the rubber safety surface will remain firm and stable on the sub-base.

ErgoSoft is tested as safety surface according to EN 1177 and is produced in 6 colours.

#### Product specification

- ErgoSoft Rubber Mulch Safety Surfaces are produced of a mixture of dyed recycled rubber mulch from worn-out tyres and polyurethane.
- Natural look & environmentally friendly.
